

This document contains the questions and options from the 2018 Demographic Survey copied verbatim from the Google Form. A back of of the questions is saved in the file menu. Changes can be made to this document, but please flag them in **bold**.

Each section is a specific section (a page) in the overall survey as one would see while taken the survey. Each section will start on its own page for separationg purposes. In each section, the subsection title is the question with a lists giving the options. The type of response is also indicated.

2021 SDSS-IV Demographics

Welcome!

Once again, the SDSS is surveying the demographics of its membership. This is our fifth demographic survey. The results of these and future surveys will (1) assist the Collaboration in understanding the involvement of its members, and (2) assist all members in taking maximum advantage of the opportunities offered within SDSS.

We welcome and appreciate the help of ALL SDSS participants, regardless of the level of involvement, in sharing their experiences.

All questions are optional. Each question was designed to help address specific concerns of the Sloan Foundation and the SDSS's leadership, and project committees, as well as responding to concerns from the broader STEM community. We emphasize that the only information besides the responses provided in this survey being recorded is the timestamp of submission – no other identifying information is transmitted.

All the information provided is strictly confidential. Statistical considerations based on the aggregate data from the survey will be shared with the collaboration, but access to the anonymous responses will be strictly limited to the members of COINS (Committee on Inclusiveness in SDSS), who have committed to utmost confidentiality on the matter.

The length of the survey depends on your participation in SDSS-III, SDSS-IV, SDSS-V, or all three, and if you have held leadership role(s) in the survey.

The Survey has the following sections and the number of questions in each section is given in parentheses: Career Information (3)
Experience with SDSS (9)
Demographic Information (10)
SDSS-III Specific (2)
SDSS-IV Specific (12)

SDSS-V Specific (12)

Impact of COVID19 (5)

Question Asking (9)

E/PO Attitudes (4)

Thank you for your help!

For the **next question**, we provide some additional information.

In the United States, a good definition for an underrepresented group can be found here (<https://diversity.ucsf.edu/URM-definition>) and we repeat below for ease.

At UCSF, our working definition of an underrepresented minority (URM) is someone whose racial or ethnic makeup is from one of the following:

- African American / Black
- Asian: Filipino, Hmong, or Vietnamese only
- Hispanic / Latinx
- Native American / Alaskan Native
- Native Hawaiian / Other Pacific Islander
- Two or more races, when one or more are from the preceding racial and ethnic categories in this list.

We recognize that these definitions may be different at your institution and country – for instance Aboriginal (Australia), First Nations (Canada), Mapuche (Chile), but perhaps the definition provides some guidance.
